

PORTHOLE

OSLO classic, OSLO revers, HIDDEN classic and Hidden revers doors are widely used in rooms exposed to greater moisture, such as kitchens and bathrooms.

Possibility to use a small window "porthole".

This attractive arrangement motif gives the room character and modernity.

Frosted or transparent glass is used in the window.

In this way, we obtain the effect of discreet lighting in the interior of the kitchen or bathroom.

There is a ventilation undercut in the bathroom door in order to ensure proper ventilation of the room.
